

ADA Site Furnishings

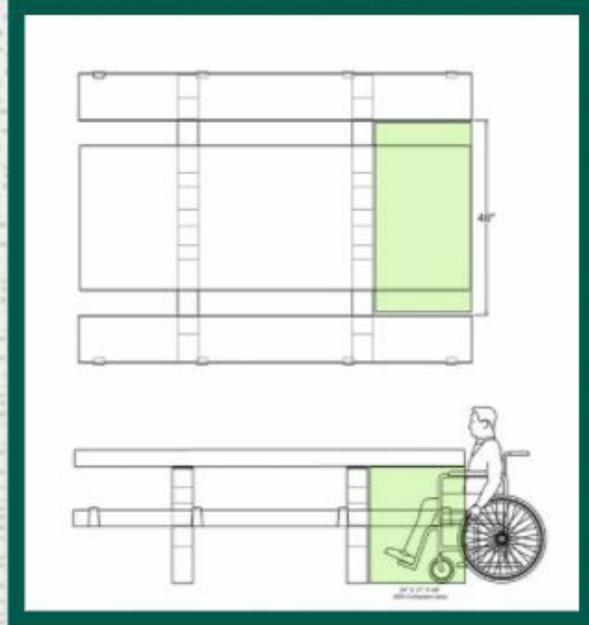

8' Woodgrain Picnic Table

Our 8' picnic tables are ADA compliant, allowing wheelchair access from either end. These tables come in Smooth or wood Grain finishes to fit any environment.

Tear Drop Cafe Table

8' Picnic Table

Modular Hills

Pinnacle - Modular Hill

This is the newest concept from UPC Parks. These Modular Hills are cast out of concrete and set into place on site. They are equipped with interchangeable play elements, including an ADA transfer station for access to the structure and slide.

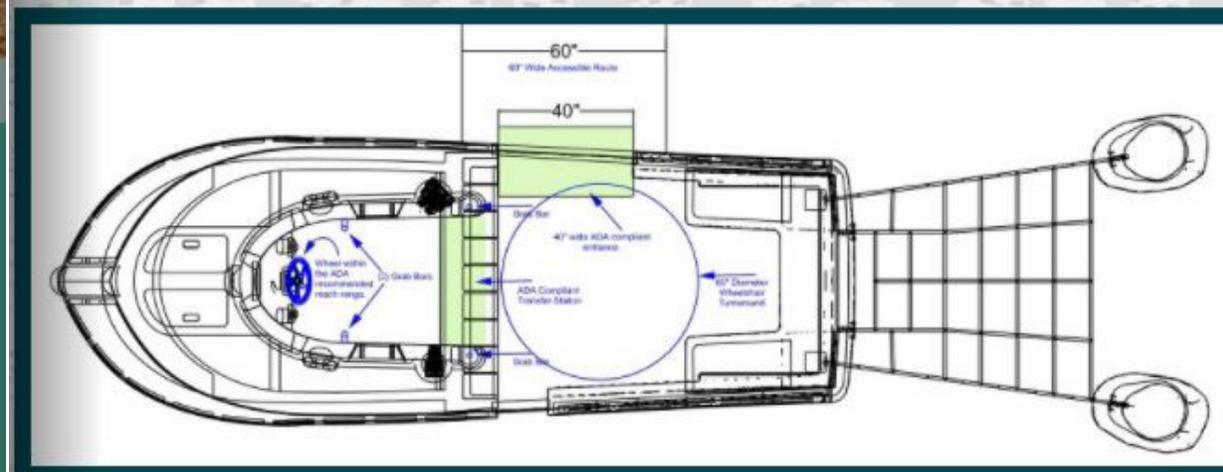

Fishing Boat

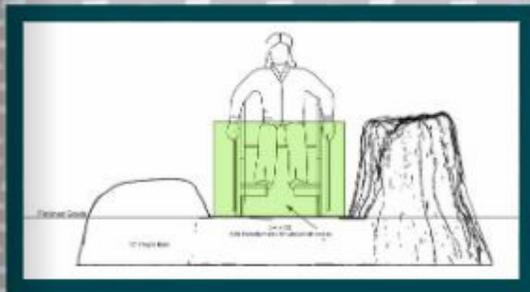

Features Include

- Grab Bars in Cabin
- Transfer Platform
- Grab Bars at Transfer platform
- 60" Wheel Chair Turn around

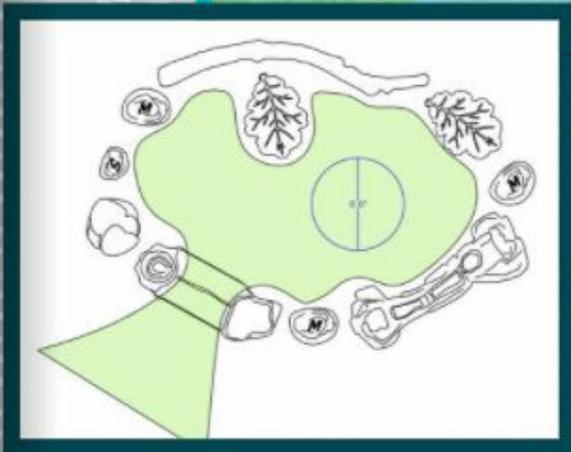

This Boat is a great all inclusive play piece. There is wheelchair access when installed in unitary surfacing or EWF. Children and adults with disabilities will enjoy taking the helm of this ship, with movable steering wheel and window cut outs for viewing the ocean. Handrails, and ADA transfer steps allow those with a range of mobility issues a chance to play and imagine right along with their friends. Children with more mobility will enjoy climbing the net or up the bow of the boat, as this is intended as a full Climb

Ramp Rock

Freedom to play anywhere
Ramp Rock is used to incorporate an ADA pathway into the playground. A rocks & Ropes linked play circuit can cross over a fully accessible ADA pathway, thus allowing kids in wheelchairs to be included in the middle of the fun.

Water play with Ruby Falls

Ruby Falls

EVERYTHING
IS MORE FUN WHEN YOU DO IT
TOGETHER

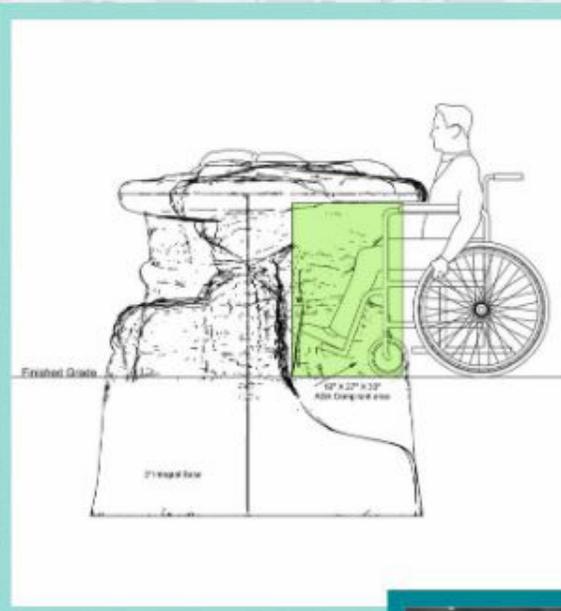

Lets Play Together!

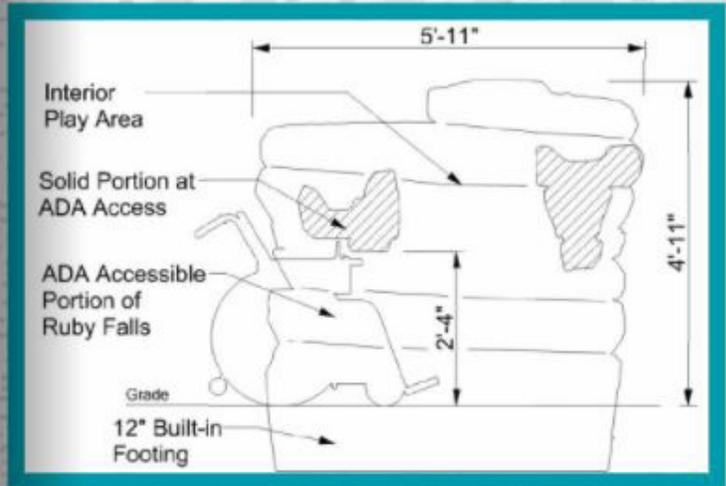

Sensory Table & Teaching Podium

Sensory Table

This table is designed to allow wheelchair access under the shelf portion of this rock, allowing kids to play on an elevated surface.

“Children learn through their senses. Sensory tables improve children's sense of touch, which helps them perceive their environment accurately. Exposure to a variety of textures improves children's development of fine motor skills.”

Ruby falls is a sand and water table that is push button activated, resulting in a fast flowing creek through the ridges and dams of sand. A specially designed area allows wheelchair access, allowing anyone to join in the fun. The wheelchair accessible section should be used with unitary safety surfacing.

Teaching Podium
This table can be used in conjunction with our Outdoor Classroom, allowing a teacher to have an elevated work space outdoors. Used standing or sitting for ADA.

ADA Height Push button allows for full inclusion!

Sequoia Hollow Log

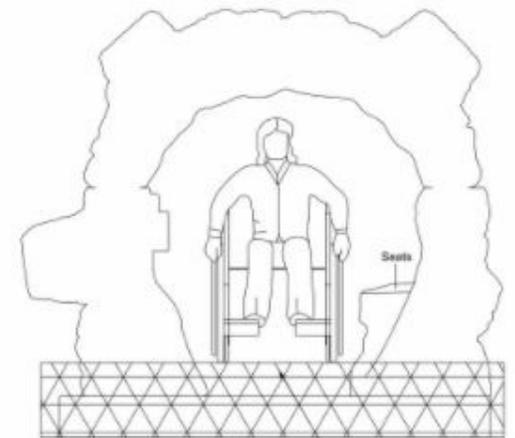

The Sequoia Hollow Log features a tree sized tunnel. Although the pathway through it is not an ADA pathway, it is large enough to allow most wheelchairs easy access. The interior of the log has seats which are designed for social interaction and relationship building.

Sequoia Log fosters socialization among peers, which is a key factor in any child's development.

Socialization Develops:

- Team work**
- Problem Solving**
- Language development**

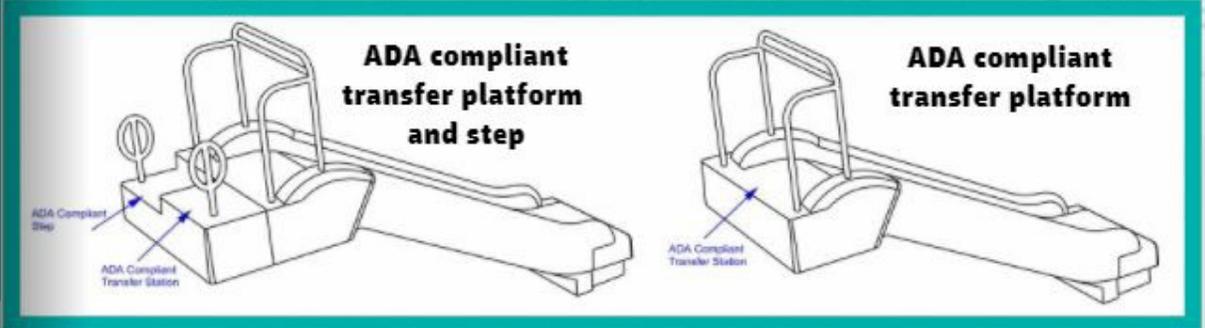

ADA Accessible Slides

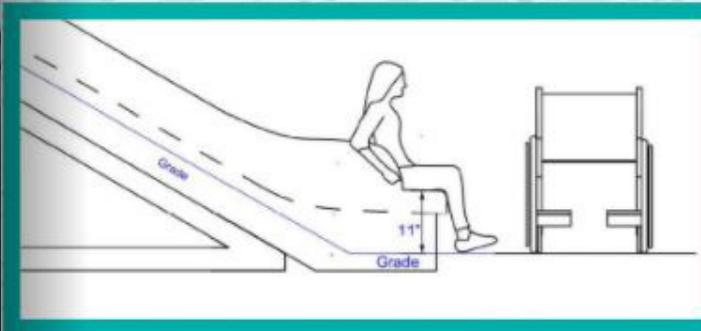

Providing the simple joy of sliding to children of all abilities.

"Sometimes you will never know the value of a moment until it becomes a memory." - Dr. Seuss

ADA Slide Entrance Options

All of our slides have ADA options available.

ADA Transfer Exit Option

Our slides come in standard heights and widths. All of our slides can have the ADA accessible entrances and exits added to them. ADA requirements may vary depending on other adjacent ADA transfer stations that provide accessibility.

Limitless Imaginative Play

“ Good afternoon Sheriff” Billy the Kid tipped his hat as he passed by the sheriff station. The sheriff in the doorway nodded as though saying.. keep walkin.. The bankers shut the windows to the bank as he walked by. The Grocer tried to sell him some fresh apples, but Billy was on a mission. The Pony Express was arriving in town today, and he had to make it to the post office in time to get the letter. A train would be arriving tomorrow and the biggest heist of his carrier was going to be on board.

No matter your ability, imaginative play is always available. The Townscapes allow children of all abilities to play together, interact and be an active participant in the fun.

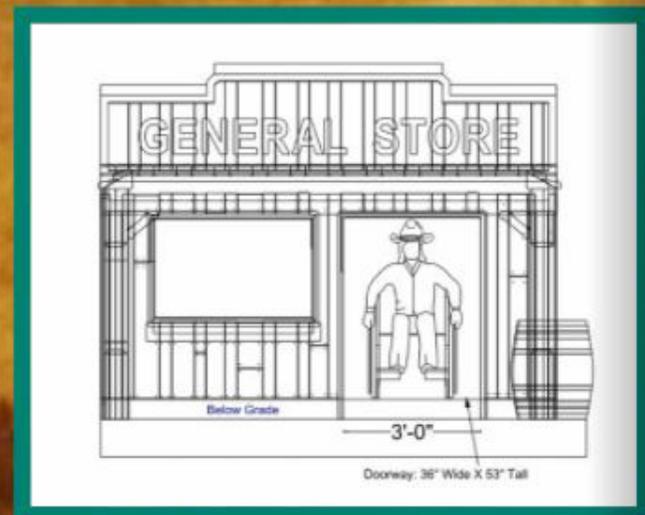

Townscapes

Buildings Available:

- Sheriff Station
- Post Office
- Bank
- General Store
- Train Station
